PROFILE

As an IT student pursuing a BUT Informatique at the IUT Le Havre, I would like to offer my development skills, particularly in creating applications and software solutions, to help your company enhance its technological expertise. Diligent and self-sufficient, I adapt easily to team needs while offering strong problem-solving abilities.

EDUCATION

BUT Informatique | 2023 - Present

IUT du Havre - Le Havre, France

Matières : App Development, Web Development, Systems Programming,
Networks

BSc Computer Science | 2022 - 2023

King Mongkut's University of Technology Thonburi - Bangkok - Thailand

Matières : Web Development, Data Structures

Transferred to another institution

Baccalauréat Général

Lycée Français International de Bangkok - Bangkok - Thailand

Specialities : Computer Science, Mathematics

EXPERIENCE

App Development | Academic Project | Team of 5 | 2024-2025

Role : Sole responsibility of the UI, Strong Supporting role in the backend

- Developed a software solution in Java to meet the client's needs as defined in the specifications.
- Adhered to development standards and best practices.

Développement d'un Jeu Vidéo 2D | Personnel Projet | Solo | 2024

Role : Design, Coding

- Developed a tech demo for a game.
- Implemented an optimized and modular code architecture, facilitating maintainability and feature evolution.

Installation d'un Service Réseau | Academic | Team of 3 | 2024

Role : Backend

- Deployed an application with network features with the help of Docker.

Full Stack Web Development | Academic Project | Solo | 2023

Role : Frontend, Backend, Integration

- Created a dynamic web application with CRUD operations management and mobile-first conceptualization using React MUI and Axios.
